DETAILED ACTION

Election/Restrictions

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Specie A: elect one or more herbs from Claim 1.

Specie B: elect one or more herbs from Claim 2.

Specie C: elect one or more herbs from Claim 11.

Specie B: elect one form of drinkable tea from Claim 6 or Claim 7.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Specie A: drawn to claims 1-9.

Art Unit: 1655

Specie B: drawn to claims 2 and 11.

Specie C: drawn to claim 11.

Specie D: If Specie D is elected from Claim 6, Specie D is drawn to claim 6. If Specie D is elected from Claim 7, Specie D is drawn to claims 7 and 10.

The following claims are generic: Claims 2 and 7.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

The herbal extracts in Claim 1, Claim 3 and Claim 11 are distinct both physically and functionally from each other and the forms of tea in Claims 6 and 7 are distinct both physically and functionally from each other within each claim and between the Claims. And a search for one herbal extract in claim 1 is not co-extensive with a search for any of the other herbal extracts in claim 1, nor is a search for one herbal extract in claim 3 co-extensive with a search for any of the other herbal extracts in claim 3, nor is a search for one herbal extract in claim 11 co-extensive with a search for any of the other herbal extracts in claim 11, nor is a search for one form of tea co-extensive with a search for any other form.
